

Service Quick Look

TECHNOLOGY

Implementing powerful solutions at every level of complexity is our specialty. Our combination of deep technical expertise and proven processes result in exceptional solutions, every time.

Strategy + Design + **Technology** + Marketing

Get it done the right way, the first time and every time

The best ideas are meaningless when they are implemented poorly. Isolated technology decisions wreak havoc with your future.

Our reputation for sophisticated architectures, powerful tools, and scalable web solutions is second to none.

TECHNOLOGY TOOLBOX

ARCHITECTURE AND CODE REVIEW

Seemingly minor decisions can have huge long-term impact in development. Our review identifies potential major issues influencing ongoing decision making and prioritization.

AGILE PROJECT MANAGEMENT

Different roles, projects, and timeframes require different project management methods. At Hedgehog, we use SCRUM or waterfall or Kanban, depending on which is best for the job.

CAPABILITY MATURITY MODEL

No one ever has enough budget or time to accomplish every objective. Our proprietary capability model benchmarks capabilities by industry and helps clients prioritize their investments.

INTERNATIONAL DELIVERY

Honed by years of iteration, Hedgehog's cross-office delivery approach provides unparalleled flexibility to assemble teams for every challenge.
